

Health & Safety Policy for Country Pines

The health & welfare of our visitors to the farm are of the utmost importance to us.

We will ensure that every effort is made and precaution taken to ensure that our guests are provided with a comfortable, safe and healthy stay.

We must all take a role and share the responsibility of reducing the risk of accidents and injuries by eliminating, isolating or minimising hazards that may cause personal injury or property damage.

Hazards to be aware of:

- Steep and slippery tracks and paddocks. Much of the property can be slippery at any time of the year - not just winter.
- Fallen, falling trees and branches and rocks.
- It is important to keep well away from the cliff edges.

- Many road users in this area are not accustomed to travelling on gravel roads, walkers/runners can be present on the roads at any time - extra care needs to be taken on roads as people unfamiliar with the roads can be unpredictable.
- When travelling in the All Terrain Vehicle, safety helmets and seat belts are to be worn.
- When travelling in the Four Wheel Drive vehicles, seat belts are to be worn.

By entering onto this property at 365 Mangone North road , Te Horo, New Zealand, I understand that I am entering at my own risk and the landowner shall not be liable for any claims of any nature. At this time, these are the hazards that we are aware of.
